Ireland and British Free Trade!

Column for All Men of All Parties to Rend! We have just put to press, as a Document which should be widely circulated, a deeply interesting fessay from the Plough, Loom and Anvil," entitled "BRITISH FREE TRADE IN IRE-LAND." It presents, in truthful and elequent inaguage, the ruinous effect which British Free inaguage, the ruinous effect which British Free inaguage, and Happiness of Ireland. That same policy is now sought to be carried out in this country. Frankers Prince is nominated as the country. Frankers Prince is nominated as the septementative and patron of that principle, and as such is enlogised, complimented and supported by the Irondon Times. British Gold was liberally to prove the secure the enactment of the present amplyced to secure the enactment of the present seach is enlogised, compinioned and was liberally the Instant Times. British Gold was liberally employed to secure the enactment of the present Tariff British Gold will also be used to secure a Tariff British Gold will also be used to secure a continuance and extension of the policy which has already necomplished so much for British Interests; and, as the most available mode of attaining this end, British Gold will be freely contributed to elect Franklin Pierce. He is the recognized practical ally of British Interests," and the contest in which the People of this country are now peacefully engaged, is not simply a contest between the American and British Interests! The election of Pierce and the permanent Free Trade Policy which will follow, will enrich English, and role American Manufacturers:—It will, to an extent fearful to contemplate, impoverish the Industrial interests of the United States as it has the Industrial interests of Ireland. What true American, Native or Adopted, wishes to lend himself to a conspiracy so infamous?

erient. Native or Adopted, wishes to lend himself to a conspiracy so infamous?
We subjoin some of the leading points discussed in this Essay, with such brief comments as they suggest. Our readers will see from them how important it is that this pumphlet should be widely distributed:

1. In 1666, all frish Wool was regained to be sent to England, and a beavy penalty was attached to reading it elsewhere. This gave the English manufacturers the monopoly of the market, and enable them to control the price.
2. The Irish manufactures, soon after, were prohibited from exporting Irish Cloth and Glass to the Colonics.

2. The Irish manufactures, soon after, were prohibited from experting Irish Cloth and Glass to the Colonia.

3. Irish ships were procluded from the benefit of the Navigation Laws, and the Fisheries were closed against them.

4. No redonial produce was allowed to go to Ireland until it had first been entered at an English port, and no drawback of duties was allowed if it afterwards went to Ireland, nor were Irish ships allowed to engage in the colonial trade.

5. To render certain the ruin of Irish manufacturers, what were not directly prolithited were taxed beauty on being sent to England, while wool, been and that were admitted free—this playing a pression to Irish insiners to break down Irish manufacturers.

6. In 1783, while England was pressed by her external enemies, a decharation of partial Irish independence was exterted from her. For a few years, Trade and Manufactures revived in Ireland, But the act of Union sgain prostrated her:

7. Soon after the Copyright Laws of England and the Patents Laws were made to embrace freshad. Thus Irish literature and Irish mechanical genius was made to pay a Tax to the hereditary enemy of the Irish internate and Irish mechanical genius was made to pay a Tax to the hereditary enemy of the Irish nation.

8. In 1900 there were 91 master woollen insunfacturers in Irishad, but in 1846 there were only 12: These manufacturers employed, in Irishin alone, in 1803, 4,918 bands, but in 1840 they were reduced to 602! The same falling eigentrated by Englanding in England. What true friend of Attacient desires to see American interests equally subsected to English capility through the agency of Free Trade?

11. The London Times, which now prays for the election of Pierce because he is in favor of British Free Trade, and is the "practical ally of British interests,"—this London Times said as long ago as 1834: "The Celt—the Irish— is the hewer of wood and drawer of water to the Saxon.

The great works of this country depend on cheap labur." The destruction of Irish manufactures made later techap," enough, and the Times rejoices!

regions!

12. When the laws were passed by the British Parliament to break down Irish manufactures, Irish capital, with her enterprising sons, went where they and their capital would not be crushed and crippled by oppressive laws. The result was that in thictory years after this second rear upon Irish Industry, thirteen millions of Irish capital was to have beinglished to be invested in active employments!

Thus has ireland been robbed by British Free Trade!

Thus has Ireland been robbed by British Free Prade!

13. When Ireland thus coased to be a Nation, her men of wealth became "Absentees;" and took their rants to England and the Continent, to be accomplished to the England and the Continent, to be accomplied to flee to after Lands for Labor and Bread—as their native hand was crusted by the policy of England to break down frish manufactures.

14. Ireland being thus crushed, pareprism and derenation followed; and England, after having dried up every avenue of maniscturing prosperity and labor, passed a law to compet the Manufacturer. But alias! here, through the deceptive hypocrisy of demagogues, too many are lending themselves to a porty whose policy coincides with the wish of England, to serue America assum has serieved frequency for the serieve and distress is seen, let, in the starvation and emigration of one million six hundred thousand between the years 1840 and 18511. Can Itishmen lend thems, tree now to the elevation of a practical city of British interests?

19. The following extracts from speeches delivered by Thomas Frances Meagnen, in 1847, are cloquent and to the point:

Tell me has England not exten enough of your food, and has she not broken down enough of your houses. The cotton manufacture of Dublin, which employed 14,000 operatives have been destroyed; the 3,400 sikhooms of the Lifty, have been destroyed; the 3,400 sikhooms of the Lifty, have been destroyed; the staff and serge manufacture, which employed 1,491 operatives have been destroyed; the staff and serge manufacture, which employed 2,191 operatives have been destroyed; the staff and serge manufacture, which ten flaunch manufacture of Ratidrum has been destroyed; the ounder trade of Handon, which produced £100,000 a year, has been destroyed; the ownstel and staff manufactures of Waterford have been destroyed; the order manufacture of Carrick-on-Suir have been destroyed; the worstel and staff manufactures. Again, in a speech at Belfast, on November 15-1~47, Mr. Meagher said :-

1847, Mr. Mengher said:

How do you explain this fact, that previous to the enactment of the Union, in thousands of factories, now chosed up, there were so many evidences of an independent of the control of the control of the independent of the control of the independent of the control of t its purple robe, and moulds its sceptre? I cite these towns: I could cite a hundred others towns — Limerick, Roseren, Carriek-on-Suir, Kükenny—I cite them against the Union.

In the same speech, in recomming the wrongs Ireland had endored at the pands of the British Convergence the same.

The Audielai Nominations

The Monroe Sentinel, the organ of Pierce and King Democracy in Green County, declines to take sides on the Judicial election and puts up both tickets at the head of its columns for the reasons stated in the article annexed :

It will be seen that we have put up the names of all the nominees for Judges of the Supreme

255" The Monroe Sentinal comes to us with a column of lamentations, marked around with red chalk, because we called the attention of the Green Co., farmers to its opinion that the following, from the Willy Review, was "bad doctrine?" 114 necessary for him, (the farmer,) if he wishes to acquire for himself a competency, and for his sons an education, to have a near market for his readner or if he camot have that, at least "good reads and a safe inland navigation to convey it to those wealther and more prosperous portions of the world, England and the Atlantic States, who have grown rich by tariffs.

Our Monroe friend is anxious to have our opin ion about something else in the Review, and don't know exactly what will happen if we refuse to give it. We'll run the risk. Meantime, we want the farmers of Green county to understand that we go for a " near market, good ronds, and a safe iniand navigation." as in the paragraph quotedwhile their county paper thinks it "bad doc-244-2197727

RAIL ROAD MEETING.

A large and enthusiastic meeting of the citizens of Port Washington, and vicinity, convened at the Court House, on Monday evening the 6th instant, to take into consideration the subject of the Lake Shors Rail Road, and in connection therewith a Hond from some eligible point in Washington County to Lake Winnebago, and to adopt measures to aid in their construction.

H.P. Pridge, Esq. was appointed Chairman, and Falser M. Rice, Secretary.

The meeting was addressed by Mesars O' Conser, Blair, White, Foster and Whedon, who severally went into explanations relative to the construction of the Lake Shore Rail Road, and the very greatimportance, not only to this County.

construction of the Lake Shore Rail Road, and the very greatimportance, not only to this County, but to this portion of Wiscousin, of securing a groupst connecteon with the middle and north-western sections of the State. The remarks of of the speakers were listened to with great interest, and clicited strong marks of approposition.

On motion, Mesers, Blair, O'Conner and White were appointed a Committee to prepare Resolutions expressive of the sense of this meeting in relation to this emerprise, who, in a short time reported the following, which were adopted by accimation.

Wisconsin Farmer.—This excellent farmer's paper, published monthly at Janesville by MARK Miller, has made its appearance for September, filled with interesting matter. We copy the ollowing from it:

STATE FAIR .- The time fixed for holding this STATE FAIR.—The time fixed for holding this annual festival is now so near at hand, that all who propose to exhibit specimens of their skill and industry, should be actively propuring for the occasion. Rouse your State prike friends, and let us have such a display as will do credit to our youthful State. Let every department of productive industry be requested by the best precimens to be obtained, whether the work of nature or art, and we are certified to will tank us high in point of excellence as some of the older States.

rank as high in point of excellence as some of the older States.

Let all, both men and women, engaged in Agriculture, Horticulture and Manufactures, combine their efforts to bring specimens of the productions of field, forest, of mine and manufactory as well as articles of tasts and art. Those who possess articles created by their own inganuity, skill, and industry, may add much, to the inferest of the exhibition by oringing them forward; and we hope individuals having such articles, will not withheld them from competition, by fear of more successful rivals. Rather, let each one hope, for sake of the general welfare, that his own specimens may be excelled.

SHEEP AT THE STATE FAIR.—We anticipate the finest display of sheep at our State Fair, that our citizens have ever seen. Several of our citizens will be on hand with their best specimens, which are hard to beat. We may also except to see some fine sheep from abroad. David Hall, E-q. of Orleans County, New York, writes us, that he shall probably attend our State Fair, and exhibit some of his French Morino Sheep. From what we have learned concerning Mr. Hall's stock, we judge he has some of the best French Merino Sheep that can be found in this Country. Our friends who are engaged in raising sheep, will then and there have an opportunity of comparing them, with the best specimens of our own State; and also of securing some of this kind, as Mr. Hall will probably have with him some for sale.

India Burman and Curva.—The usual dispatcles in anticipation of the overland Indian mail have been received via Marsellies. The dates are Calcutta, July 2; Bornbay, July 5, and Hong Kong June 24. The effort made by the Burmese to regain Martaban took place on the 26th of May, and the force was composed of between 1000 and 1200 men. They fought well, but were gallantly beaten by the 40th Madras infantry, under the command of Major Hall. The loss of the enemy issupposed to have been severe, as they were exposed for some time to a very heavy fire. The British loss was only one killed, and 13 wounded. The storming and capture of Pegu occurred on the 4th of June. The force despatched for this purpose was two hundred and hinty men, under Major Cotton. The enemy offered little resistance, and soon fied, leaving a considerable quantitylof arms and armmunition. Major Cotton only lost one killed and six wounded. On the following day the whole force returned to Rangoon. The troops at all the three stations were healthy, every precention having been adopted to flangoon. The troops at all the three stations were healthy, every precention having been adopted to the state of the state of the state of the curve level and the heaviness of the rains.
